***Note: For safety reasons, other recyclable items like glass, inks/toners, rechargeable batteries, cell phones, and fluorescent tubes and light bulbs can be brought into the Vegreville Materials Recovery Facility (VMRF) at 5201-52 Avenue.**

The Sanitary Landfill (located at 52321 Range Road 144, 1 kilometer east of 47 St & 61 Ave) has permanent collection sites for paint, electronic waste, tires, automotive batteries, household hazardous waste, metals, wood, concrete, and compost.

The VMRF will also securely shred your personal/confidential documents for a minimal fee

Compost Roll Out Collection: Wednesday

The Town of Vegreville collects compost from May to October (weather-dependent). The process is environmentally friendly and when done on a regular basis, reduces the amount of household waste entering our landfill, resulting in the reduction of greenhouse gases, which in turn, extends the life of the landfill.

CONTAMINANTS

Contaminated compost is one of the major challenges our compost program faces, resulting in increased time and costs. Major contaminants include:

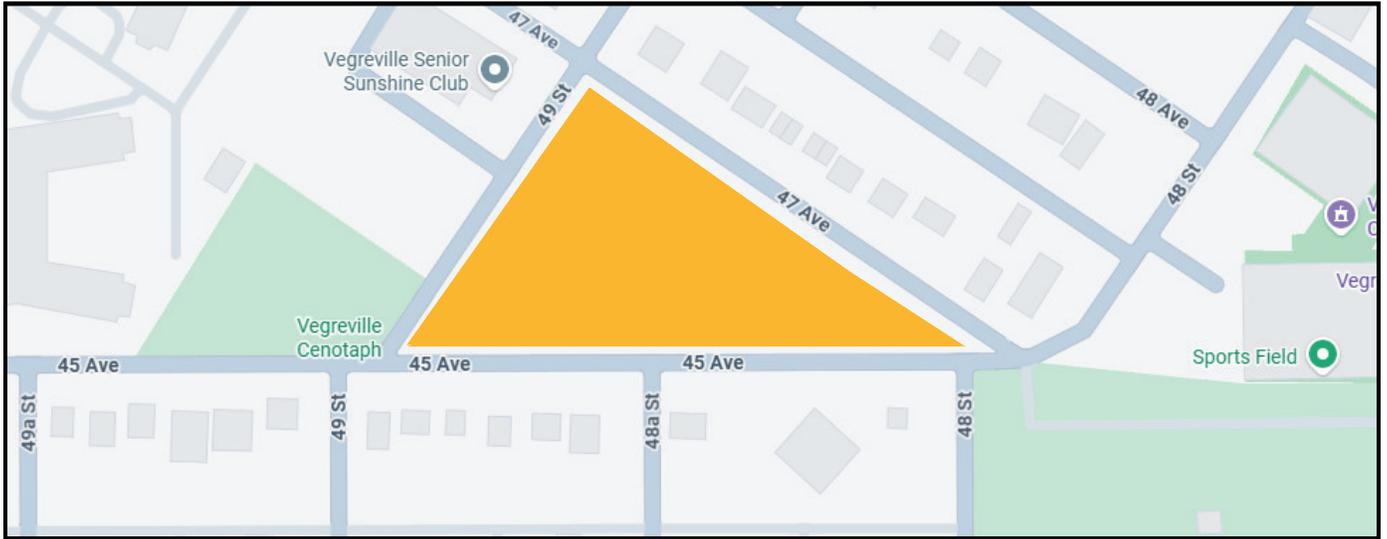

- Plastic Bags
- Trees
- Branches
- Concrete
- Rocks
- Metal
- General Garbage
- Glass
- Pet feces
- Cat litter

Please ensure that when collecting compost that the items noted above are not included with your compostable materials.

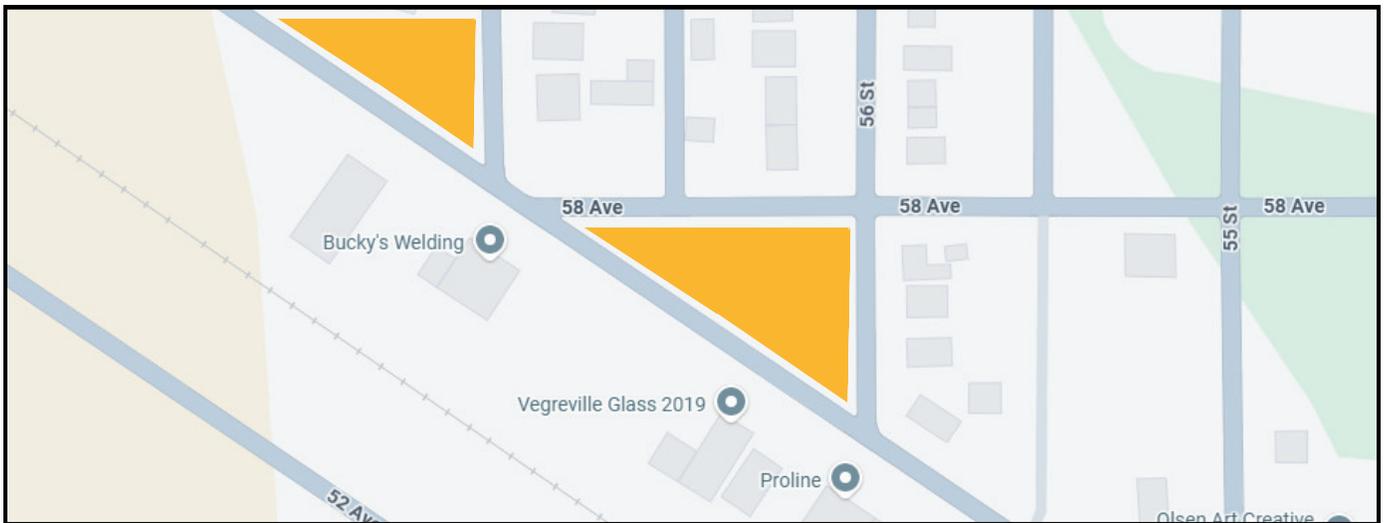

If you don't have a bin near you, you can take your compost to the Vegreville Sanitary Landfill at no charge. To request a bin in your lane, please contact Municipal Services at 780-632-3439. Compost buckets to keep under your kitchen sink are also available for purchase at the Vegreville Aquatic & Fitness Centre for \$10.
